Role of the Office of Diversity and Inclusion:
• To ensure the agency is in compliance with the laws and regulations governing federal-sector equal employment opportunity and civil rights.

Compliance requirements for recipients of federal/NSF Funds:
• All recipients are required to comply with laws and regulations that prohibit discrimination in federally assisted programs and activities.
Nondiscrimination: Civil Rights Compliance Requirements

- As part of NSF’s proposal guidelines, applicants for NSF funding are to adhere to the various non-discrimination requirements as discussed.

- Basically, these federal laws prohibit discrimination on the bases of race, color, national origin, gender, and disability in any program or activity that receives federal funding.

- ODI is charged with ensuring recipients are in compliance under applicable statutes via pre and post award compliance reviews.
Nondiscrimination: Civil Rights Compliance Requirements

Pre Award:
• This is done via submission of an electronic certification at the time of proposal submission. As part of the electronic certification, the Organization’s Authorized Representative certifies that the organization agrees to comply with the various nondiscrimination laws and regulations discussed during this presentation. This also applies to sub-recipients.
Nondiscrimination: Civil Rights
Compliance Requirements

Post Award:
• This is done via post-award compliance reviews.

• Goal is to provide meaningful technical assistance to all recipients that help strengthen their current compliance efforts as well as identify and report on best practices.

• Requires recipients to provide information, inclusive of data, on their specific programs that relate to federal antidiscrimination requirements.

• Limited compliance reviews are currently being conducted as part of the Large Facilities Office’s Business Service Reviews (BSRs).
Nondiscrimination: Civil Rights Compliance Requirements

Post Award:

• Conducting Title IX reviews is part of NSF’s Career Life Balance (CLB) Initiative. In response, NSF will initially focus primarily on conducting Title IX reviews.

• NSF in the process of implementing guidance for compliance reviews that are similar to that in the BSR process.

• Compliance reviews will focus on conducting desk reviews to gather compliance information; collecting promising and innovative practices to share with others, offering technical assistance where needed, and ultimately conducting on-site reviews.
NSF also is responsible for processing complaints of discrimination from institutions that receive NSF funding.

- Complaints are forwarded to NSF’s EEO Director for processing.
- Complaints may also be processed via the institution’s internal complaint process.
Nondiscrimination: Civil Rights Compliance Requirements

- NSF’s policy is to work with recipients to ensure they are in compliance.
- Failure to comply with one or more of the terms and conditions of NSF grants may result in suspension or termination of the grant.
- NSF will give the recipient notice and the opportunity to correct the deficiency.
- For a review of suspension or termination of procedures, please review NSF’s Award and Administration Guide on its website at www.nsf.gov
