

ESPP Outstanding Student Publication Award

ESPP has created the ESPP Outstanding Student Publication Award to recognize excellence in research addressing environmental science and policy, published in peer-reviewed journals, and lead or sole authored by a student currently enrolled in the ESPP Dual Major Doctoral Degree program, Graduate Specialization in Environmental Policy, or Graduate Certificate in Environmental and Social Systems Modeling. Papers are eligible if they appeared “in print” during the calendar year previous to the year in which you apply.

To apply, please submit:

- A cover letter briefly addressing the interdisciplinarity of the idea, team, and/or contribution; potential for impact (i.e., journal standing or citations); and direct or indirect implications for environmental policy.
- A PDF copy of your publication.

Please email your application to espp@msu.edu with the subject line “ESPP outstanding student publication award” by February 1.

Submissions will be reviewed by ESPP faculty members to make the final recommendations. Recipients of the award will receive a certificate and a monetary reward of \$500.
